

Teaching and Learning at Bickley Primary

Teaching and Learning Principles

At Bickley, we believe in the concept of lifelong learning and the idea that children and adults should learn new things every day and work with confidence and motivation to make good progress.

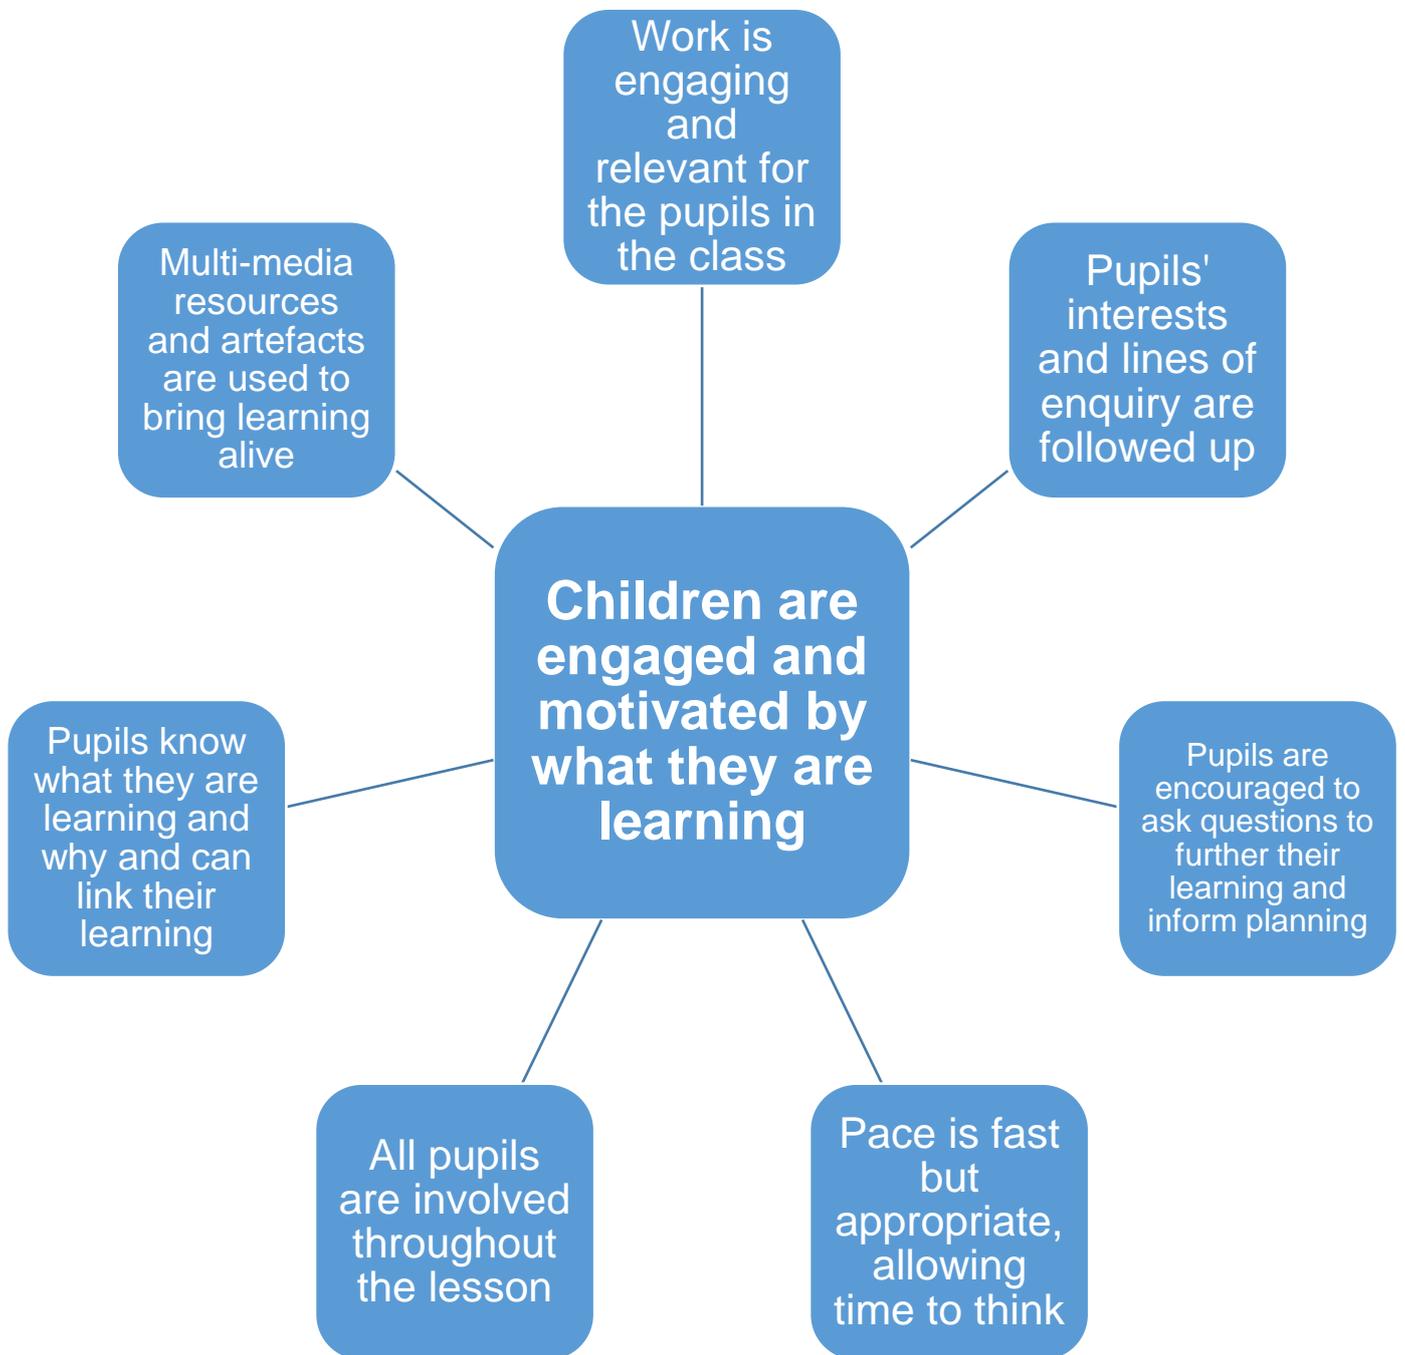

As well as teaching knowledge, we develop a range of learning skills, such as **resilience, curiosity, collaboration, creativity and linking of learning.**

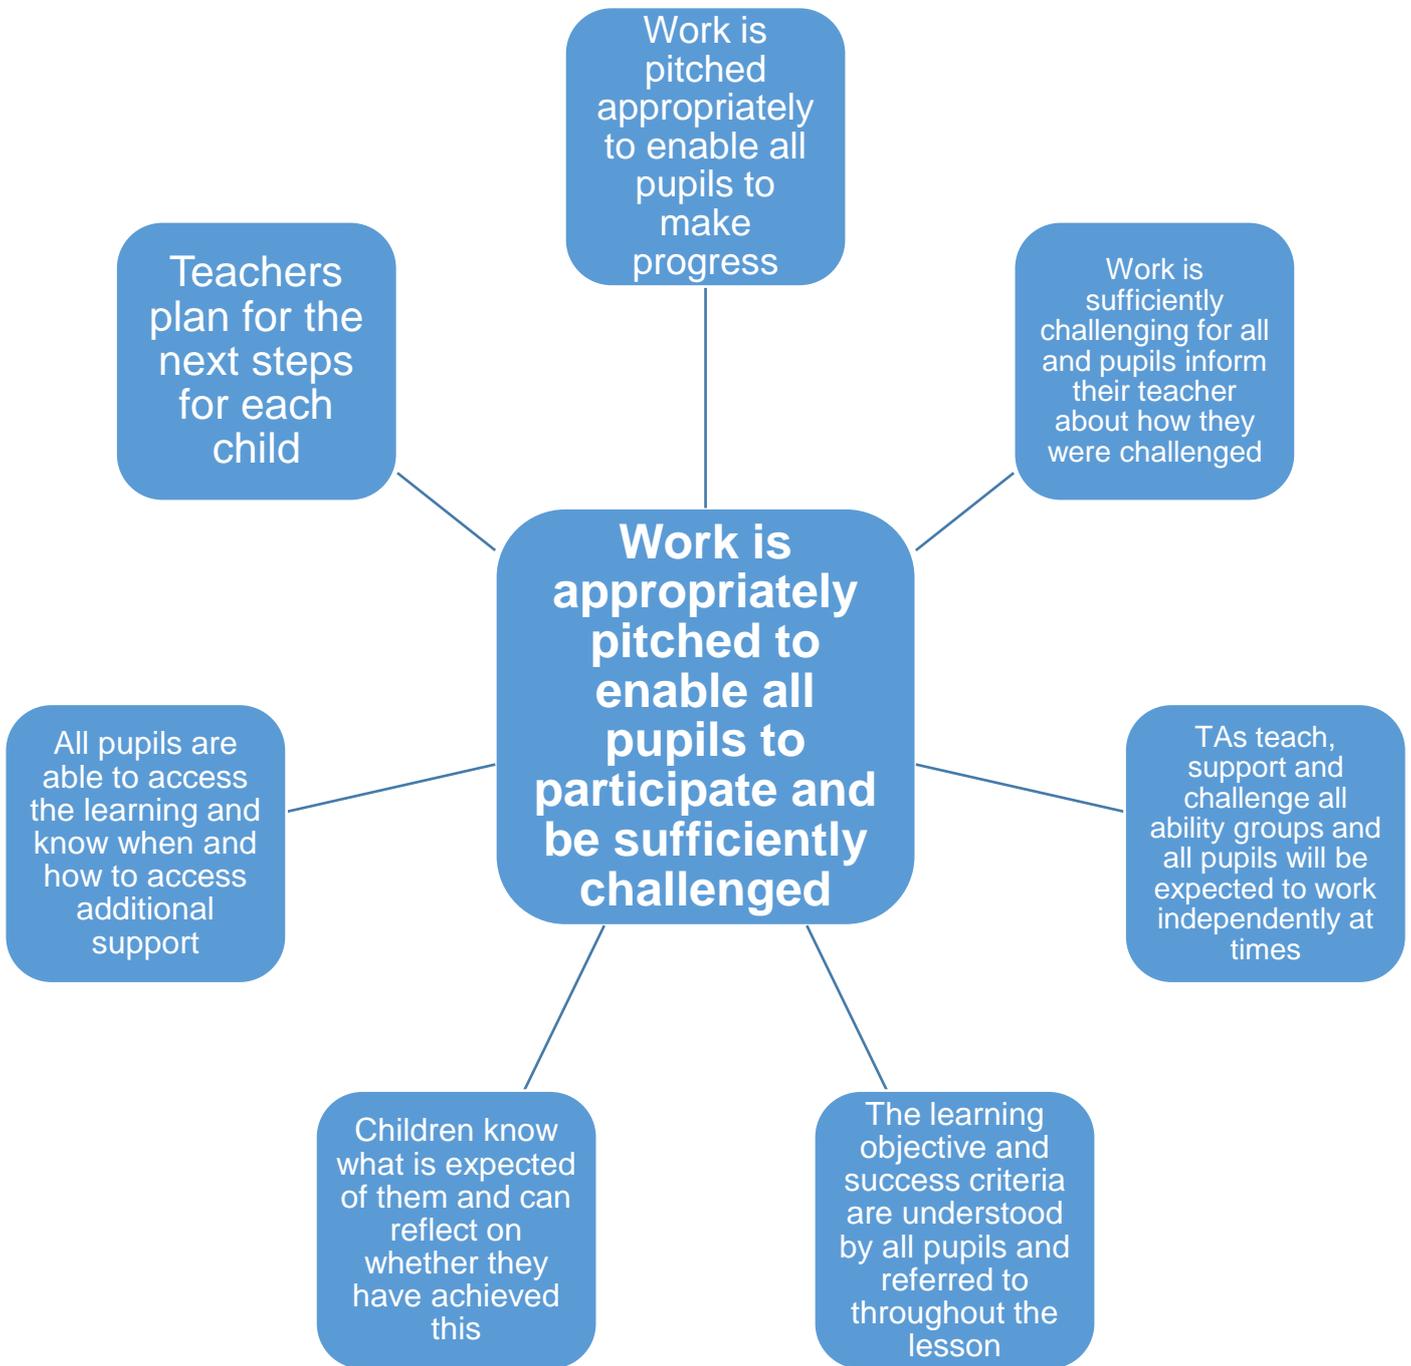

Behind all that we do are the following values: **Respect, Excellence, Friendship, Equality, Inspiration, Determination and Courage.**

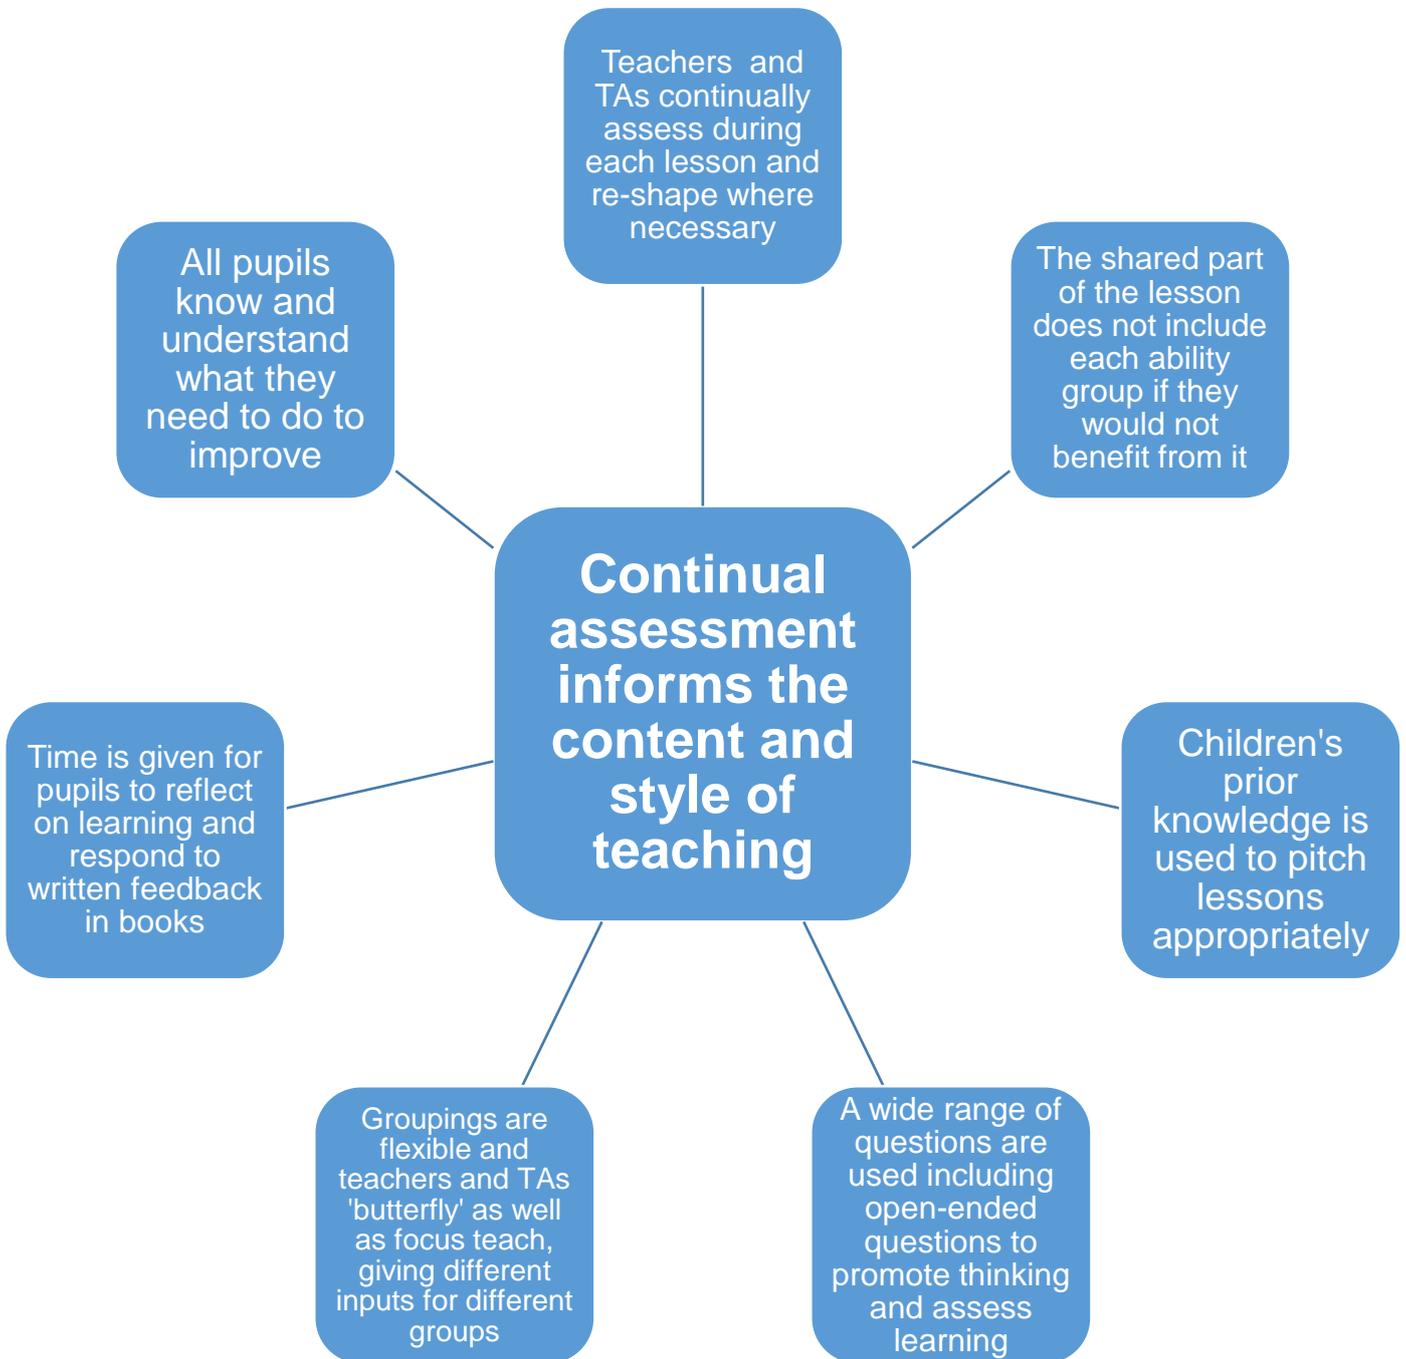

Behind all teaching and learning is the premise that the children know what they are learning, why they are learning it, whether or not they have been successful in their learning and what the next steps are.

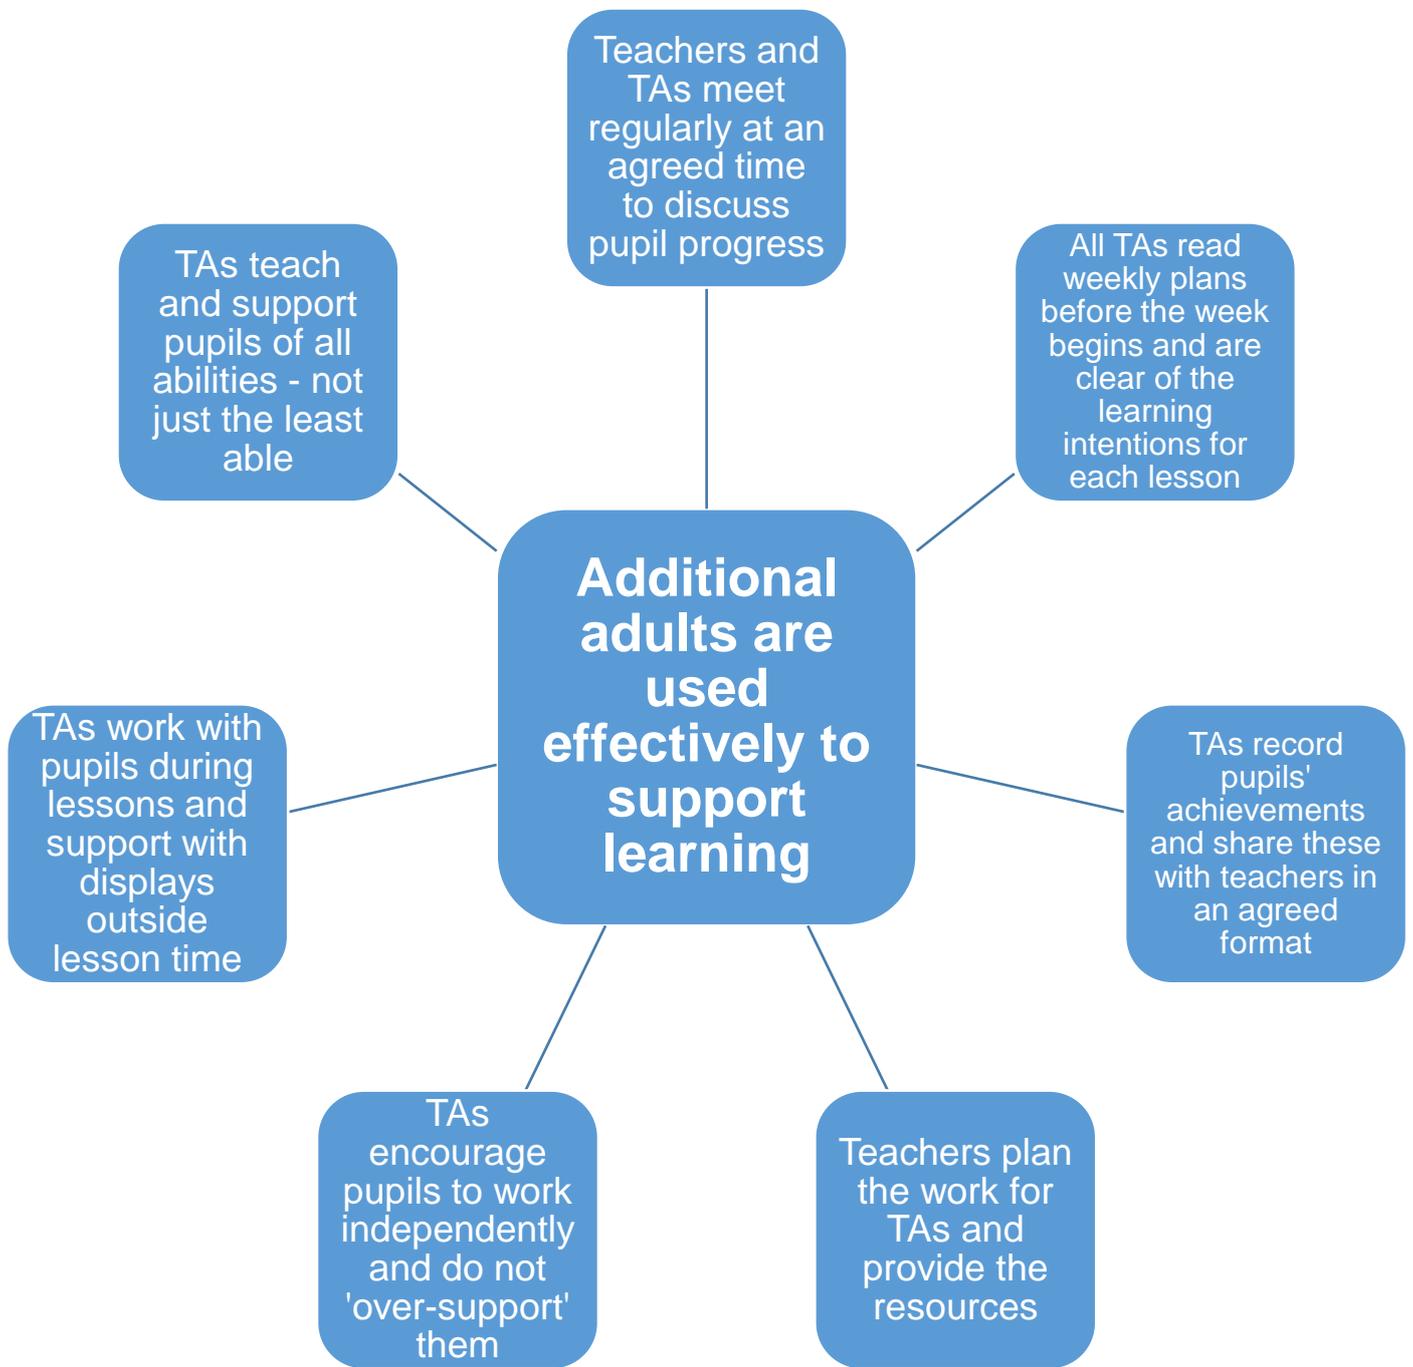

The following are the non-negotiable principles which inform our teaching at Bickley:

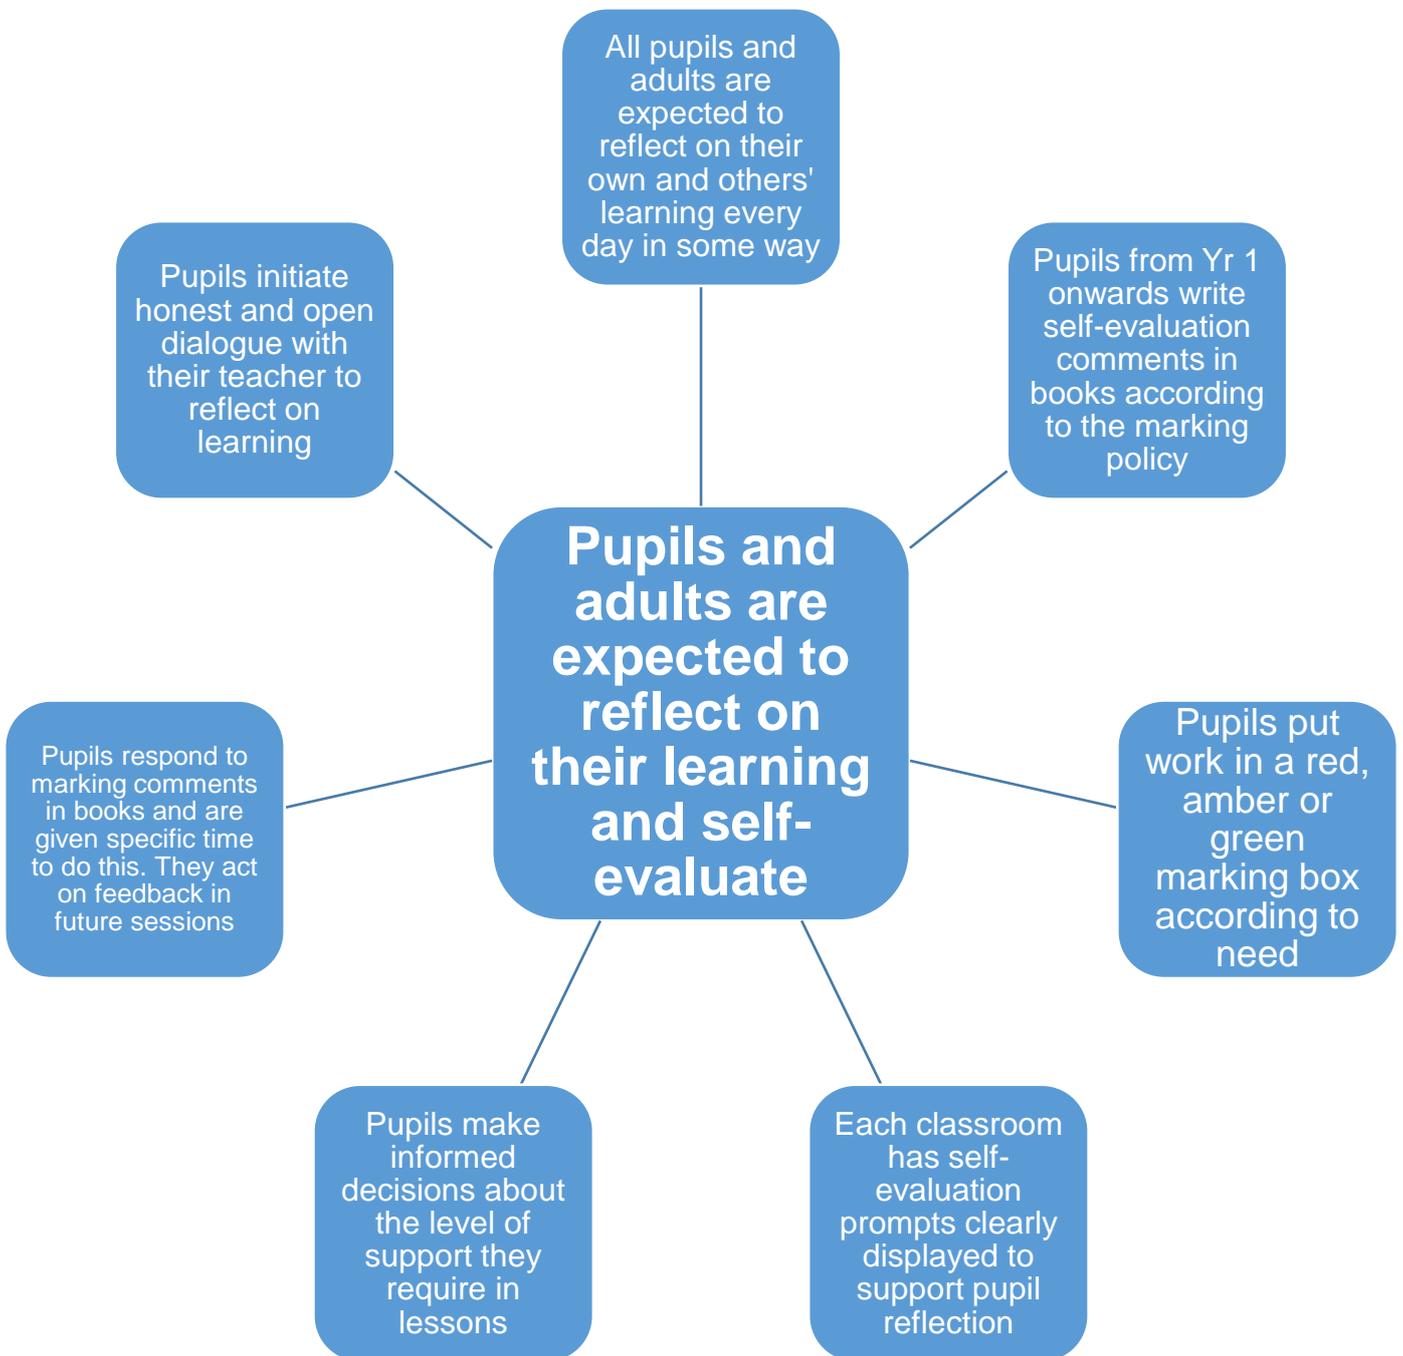

- ❖ Children are engaged and motivated by what they are learning.
- ❖ Work is appropriately pitched to enable all children to participate and be sufficiently challenged.
- ❖ Continual assessment informs planning and the content and style of teaching
- ❖ Additional adults are used effectively to support learning.
- ❖ Pupils are expected to reflect on their learning and self-evaluate.
- ❖ The learning environment and classroom atmosphere promotes independence and success.

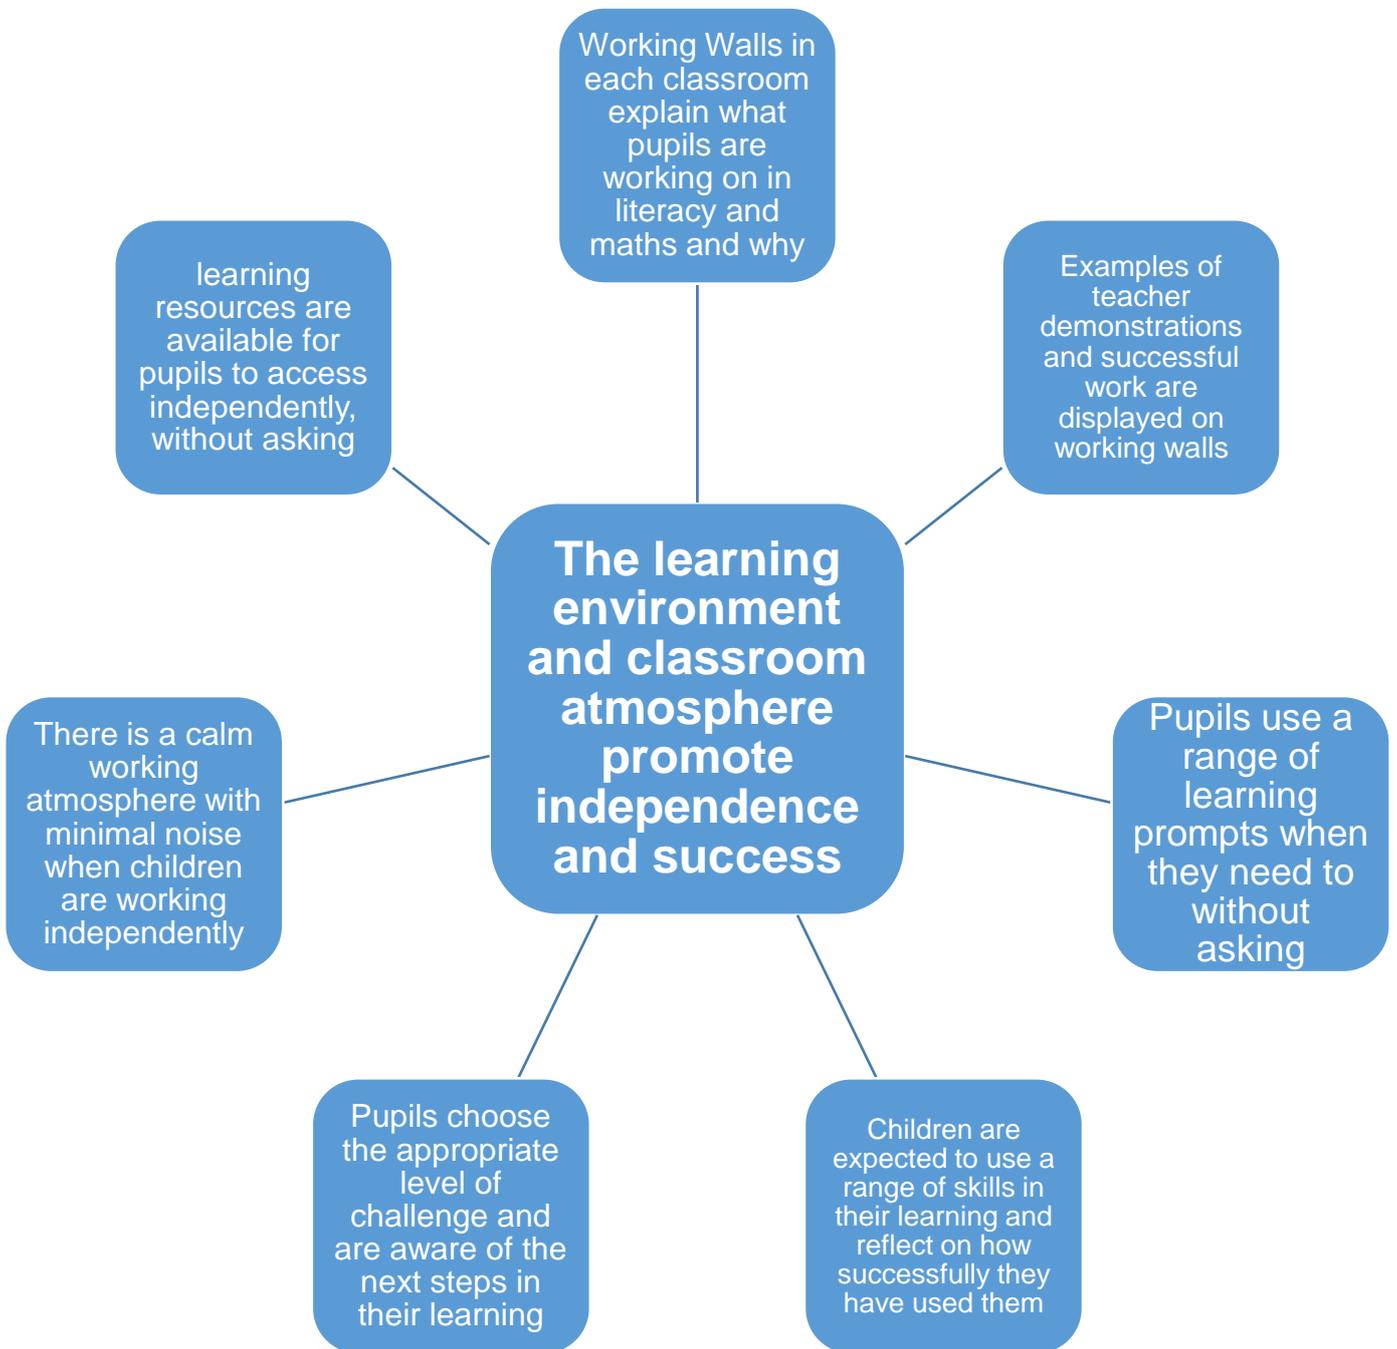

What makes Good and Outstanding Teaching

At Bickley, we aim that all teachers demonstrate the features of good teaching as defined by Ofsted, and that an increasing number of teachers demonstrate the features of outstanding teaching.

The main focus for staff CPD, staff meetings and INSET days is to ensure the following:

Outstanding (1)

- Teachers demonstrate deep knowledge and understanding of the subjects they teach. They use questioning highly effectively and demonstrate understanding of the ways pupils think about subject content. They identify pupils' common misconceptions and act to ensure they are corrected.
- Teachers plan lessons very effectively, making maximum use of lesson time and coordinating lesson resources well. They manage pupils' behaviour highly effectively with clear rules that are consistently enforced.
- Teachers provide adequate time for practice to embed the pupils' knowledge, understanding and skills securely. They introduce subject content progressively and constantly demand more of pupils. Teachers identify and support any pupil who is falling behind, and enable almost all to catch up.
- Teachers check pupils' understanding systematically and effectively in lessons, offering clearly directed and timely support.
- Teachers provide pupils with incisive feedback, in line with the school's assessment policy, about what pupils can do to improve their knowledge, understanding and skills. The pupils use this feedback effectively.
- Teachers set challenging homework, in line with the school's policy and as appropriate for the age and stage of pupils, that consolidates learning, deepens understanding and prepares pupils very well for work to come.
- Teachers embed reading, writing and communication and, where appropriate, mathematics exceptionally well across the curriculum, equipping all pupils with the necessary skills to make progress. For younger children in particular, phonics teaching is highly effective in enabling them to tackle unfamiliar words.
- Teachers are determined that pupils achieve well. They encourage pupils to try hard, recognise their efforts and ensure that pupils take pride in all aspects of their work. Teachers have consistently high expectations of all pupils' attitudes to learning.
- Pupils love the challenge of learning and are resilient to failure. They are curious, interested learners who seek out and use new information to develop, consolidate and deepen their knowledge, understanding and skills. They thrive in lessons and also regularly take up opportunities to learn through extra-curricular activities.
- Pupils are eager to know how to improve their learning. They capitalise on opportunities to use feedback, written or oral, to improve.
- Parents are provided with clear and timely information on how well their child is progressing and how well their child is doing in relation to the standards expected. Parents are given guidance about how to support their child to improve.
- Teachers are quick to challenge stereotypes and the use of derogatory language in lessons and around the school. Resources and teaching strategies reflect and value the diversity of pupils' experiences and provide pupils with a comprehensive understanding of people and communities beyond their immediate experience.

Good (2)

- Teachers use effective planning to help pupils learn well. Time in lessons is used productively. Pupils focus well on their learning because teachers reinforce expectations for conduct and set clear tasks that challenge pupils.
- In lessons, teachers develop, consolidate and deepen pupils' knowledge, understanding and skills. They give sufficient time for pupils to review what they are learning and to develop

further. Teachers identify and support effectively those pupils who start to fall behind and intervene quickly to help them to improve their learning.

- Teachers use their secure subject knowledge to plan learning that sustains pupils' interest and challenges their thinking. They use questioning skilfully to probe pupils' responses and they reshape tasks and explanations so that pupils better understand new concepts. Teachers tackle misconceptions and build on pupils' strengths.
- Teachers give pupils feedback in line with the school's assessment policy. Pupils use this feedback well and they know what they need to do to improve.
- Teachers set homework, in line with the school's policy and as appropriate for the age and stage of pupils, that consolidates learning and prepares pupils well for work to come.
- Teachers develop pupils' reading, writing and communication, and where appropriate mathematics, well across the curriculum. For younger children in particular, the teaching of phonics is effective in enabling them to tackle unfamiliar words.
- Teachers expect and encourage all pupils to work with positive attitudes so that they can apply themselves and make strong progress.
- Pupils develop the capacity to learn from mistakes and they become keen learners who want to find out more. Most are willing to find out new information to develop, consolidate and deepen their knowledge, understanding and skills, both in lessons and in extra-curricular activities.
- Most pupils commit to improving their work. They are given time to apply their knowledge and understanding in new ways that stretches their thinking in a wide range of subjects, and to practise key skills.
- The school gives parents accurate information about how well their child is progressing, how well their child is doing in relation to the standards expected, and what their child needs to do to improve.
- Teachers challenge stereotypes and the use of derogatory language in lessons and around the school. Teachers promote equality of opportunity and diversity in teaching and learning.
