

## Year 2 Homework outline

Each week teachers will expect all children to cover the following areas of homework:-

- Reading – children to read for 10 minutes each day. This can include either their Reading scheme books from school and/or books from home or the library. Reading books will be sent home every Wednesday and these are expected to be read and returned by the following Wednesday. It would be helpful if these books were read more than once as this is proven to aid comprehension and fluency.
- Spellings – differentiated spellings will be sent home every Friday and tested the following Friday. These will either be phonics based, topic words or high frequency words depending on ability and focus areas.
- Other homework – this will be sent home every Friday and should be returned by the following Wednesday. This could include Mathematics, English, Science or any other subject areas and will consolidate and enhance work being covered in the classroom at that time.
